MARINE POLLUTION BULLETIN

The International Journal for Marine Environmentalists,
Scientists, Engineers, Administrators, Politicians and Lawyers.

The *Marine Pollution Bulletin* sets out to cover all aspects of the fight for life of the lakes, estuaries, seas and oceans. It includes news, comment, reviews and research reports, not only on the threat of noxious substances to marine life but also on the management and productivity of the marine environment in general. It publishes accounts of new and proposed research programmes as well as the results of those in progress.

Published monthly

Editor

Prof. R. B. Clark, *Dept. of Zoology,
University, Newcastle upon Tyne
NE1 7RU, UK*

News Editors

Dr P. Kingston, *Institute of Offshore
Engineering, Heriot-Watt University,
Riccarton, Edinburgh EH14 4AS, UK*

Ms E. Stamman, *SEAMOCEAN,
7609 Potrero Avenue,
El Cerrito, CA 94530, USA*

Baseline Editor

Dr E. I. Hamilton, *Institute for Marine
Environmental Research, Prospect Place,
Plymouth PL1 3DH, UK*

Editorial Board

Dr W. R. P. Bourne *University of Aberdeen, UK*
Prof. G. Cognetti *Istituto di Zoologia e Anatomia Comparata, Pisa, Italy*
Dr D. Ellis *Department of Biology, University of Victoria, B.C., Canada*

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organizations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature and translations. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the copyright holder.

Photocopying information for users in the U.S.A.

The Item-fee Code for this publication indicates that authorization to photocopy items for internal or personal use is granted by the copyright holder for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service provided the stated fee for copying, beyond that permitted by Section 107 or 108 of the United States Copyright Law, is paid. The appropriate remittance of \$3.00 per copy per article is paid directly to the Copyright Clearance Center Inc., 27 Congress Street, Salem, MA 01970. The Item-fee Code for this publication is: 0025-326X/88 \$3.00 + 0.00

Permission for other use

The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying.

Instructions to Authors

- Forms of contributions:** Research Reports (maximum 2500 words of text), shorter research Notes, Baseline records of contamination levels, Viewpoint articles, and Letters to the Editor are considered for publication. Submit manuscripts to the Editor, Prof. R. B. Clark (address above).
- Style of contribution:** Manuscripts to be in the English language with (a) Main title (not more than 2 lines printed; sub titles should be avoided), (b) author's name, affiliation, and present postal address, (c) informative summary (not more than 150 words), (d) text, (e) acknowledgements, (f) references, (g) tables, (h) captions to figures. Submit 2 copies of the manuscript on good quality white paper (or high quality xerographic copies); the manuscript should be typed with double spacing throughout and with wide margins (4 cm). All tables and figures should be numbered with Arabic numerals. In the text the word 'Figure' should be abbreviated to 'Fig.' except at the beginning of a sentence. Avoid hyphenation at end of a line. Weights and measures must be expressed in metric units according to the *Système Internationale* (non-metric equivalents, if appropriate, can be included in parentheses). All non-standard abbreviations or symbols should be defined when first mentioned.
- Tables:** A clear copy of tables of data should be submitted on a separate sheet and not included in the text. Very extensive tables of data are of questionable value and authors should consider more succinct ways of presenting essential information. The same data should not be presented in both tabular and graphical form.
- Figures:** All photographs, schemes, and drawings should be referred to as figures, numbered consecutively, and *not* included in the typescript. Maximum size 22 × 28 cm. On the back or margin, the author should write his name, the figure number, and the orientation of the figure. One set of figures should be of a quality suitable for reproduction (original drawings or high quality photographic reproduction; xerographic copies are not acceptable); photographs should be sharp with clear contrasts. Scales, if needed, should be shown on the drawing or photograph.
- References:** References should be listed at the end of the text in strict alphabetical order of authorship and year of publication. Give all authors' names, full article title, and inclusive pages. Journal titles should conform with abbreviations in the *World List*. Citations in the text should be by author and date, given in parentheses; 'et al.' is used for papers with three or more authors. Examples:
Journal: Swedmark, M., Granmo, A. & Kellberg, J. (1973). Effects of oil dispersants and oil emulsives on marine animals. *Water Res.* 7, 1649-1692.
Book: Bryan G. W. (1976). Heavy metal contamination in the sea. In *Marine Pollution* (R. Johnston, ed), pp. 185-302. Academic Press, London.
- Proofs:** Unless otherwise specified, galley proofs will be sent to the first-named author for correction. Excessive alterations should be avoided. Corrected proofs should be returned to the Editor, Prof. R. B. Clark (address above).
- Reprints:** Reprints can be purchased at a reasonable cost, and an order form will be enclosed with the galley proofs.
- Content:** Although all contributions are subject to peer review, responsibility for the contents of papers rests upon the authors and not upon the editor or the publisher. It is therefore important that the contents of the manuscript are carefully considered by authors. The author must agree not to publish the same manuscript in any other journal without obtaining the consent of the editor of this journal.

MARINE POLLUTION BULLETIN

**The International Journal for Marine Environmentalists,
Scientists, Engineers, Administrators, Politicians and Lawyers.**

1. Viewpoints

Marine Pollution Bulletin has been publishing commissioned 'Viewpoint' articles since 1977 by senior and authoritative experts in marine pollution. The Editorials and Viewpoints are important and influential features of the journal which express opinions about current events. Recent viewpoints include:

Use of bio-indicators in monitoring conservative contaminants: programme design imperatives—D. J. H. Phillips & D. A. Segar

Marine pollution mismanagement: towards a precautionary concept—V. Dethlefsen
Science—a time of change?—E. I. Hamilton

The IOC programme on marine pollution—Gunnar Kullenberg

Mercury in the Mediterranean basin—R. Ferrara & B. Maserti

World-wide death of corals—natural cycling events or man-made pollution—B. E. Brown

Ecological and human health concerns in ocean disposal of wastes—Judith Capuzzo

The modern prevalence of beach erosion—E. C. F. Bird

Marine treatment and marine protection—The need for harmony—N. C. D. Craig & J. R. Lawrence

2. Special Issues

Marine Pollution Bulletin also publishes special topic issues from time to time, which are also available separately to non-subscribers, direct from the Publisher. Special issues published to date are:

Vol. 18 No. 6B (1987) *Plastics in the Sea*
Edited by Douglas A. Wolfe

Vol. 17 No. 4 (1986) *Submarine Sewer Outfalls*
by B. Quetin & M. de Rouville

Vol. 16 No. 4 (1985) *Cellular Toxicology and Marine
Pollution*
Edited by B. L. Bayne

Vol. 15 No. 2 (1984) *Bristol Channel and Severn Estuary*
Edited by R. S. Glover

Vol. 12 No. 6 (1981) *State of the Baltic*
Edited by G. Kullenberg

Vol. 10 No. 10 (1979) *Pollution in the Mediterranean*
Edited by R. B. Clark

Vol. 9 No. 11 (1978) *The Amoco Cadiz Oil Spill*
Edited by M. F. Spooner

FREE Sample Copies Available On Request

WATER SCIENCE AND TECHNOLOGY

A Journal of the International Association on Water Pollution Research and Control

Editorial Enquiries to: IAWPRC, 1 Queen Anne's Gate, London SW1H 9BT, UK

Published on behalf of the International Association on Water Pollution Research and Control (IAWPRC) this important review journal records the proceedings of IAWPRC biennial conferences, international specialized conferences on topics and developments in all fields of water pollution control of current importance, and seminars devoted to a detailed study of important subjects.

The value of *Water Science and Technology* lies in the rapid publication of these proceedings in journal form, ensuring rapid dissemination of information on research, development and application of new techniques. Engineers, consultants, technologists and research workers unable to attend conferences, or who lack time to keep up with the continually growing literature, will find this journal essential as a permanent record of progress. Papers are selected by a rigorous review procedure and are published together with posters presented at the conference.

A Selection of Recently Published Papers

Reuse of municipal wastewater in arid countries, U NEIS (FRG) *et al.*

Impact of pulp and paper mill wastewater on crop and soil, A S JUWARKAR (India) & P V R SUBRAHMANYAM (India).

An assessment of a low-cost wastewater disposal system after twenty-five years of operation, B L REIDY (Australia) & G W SAMSON (Australia).

A lake eutrophication management model, L SOMLYODY (Hungary).

Optimization of regional water quality monitoring strategies, J PINTER (Hungary) & L SOMLYODY (Hungary).

A comparison of simple methods for estimating the mass flow of fluoride discharged into rivers, W VAN CRAENENBROECK (Belgium) & J MARIVOET (Belgium).

A New Patents section is included in this journal.

Indexed/Abstracted in: Chemical Abstracts, Current Contents, Excerpta Medica, CABS, BIOSIS Database, Engrg Ind Monthly & Author Index

Subscription Information

1988: Volume 20 (12 issues)

Annual subscription (1988)

DM 1290.00

Two-year rate (1988/89)

DM 2451.00

ISSN: 0273-1223

A combined subscription to *Water Research* and *Water Science and Technology* is available:

Annual subscription (1988)

DM 2450.00

Two-year rate (1988/89)

DM 4655.00

Advertising rate card available on request. Back issues and current subscriptions are also available in microform. The German Mark (DM) prices shown include postage and insurance, and apply in Europe, Africa, Asia/Australasia (with the exception of Japan). For the rest of the world including Japan apply to the nearest Pergamon office. Prices are subject to change without notice.
